

## **VOTE AGAINST CRONY CAPITALISM**

Any City Council Candidate endorsed by the HBA PAC (Housing and Building Association of Colorado Springs Political Action Committee) has agreed to support the HBA's "Development Master Plan".

- HBA endorsed candidates will support an Agenda 21 Style Development Master Plan
- HBA endorsed candidates will support a master plan which involves taking the poorest peoples homes in the city by eminent domain and building a baseball stadium downtown. The neighborhood where we have two homeless shelters. It's a billion dollar land grab! Would you want your home stolen by the government without your consent to sell?
- A vote for these candidates is a vote to create a monopoly of our Utilities and you'll see 50% increases in your utility bill just like Boulder when they did it. Boulder is now trying to get their contract canceled with Xcel Energy.
